RIVES

HISTORY AND FAMILY

The Rive's history dates back to 1880 when the company was established by Don Augusto Haupold, German Consul in the south of Spain and visionary entrepreneur. He soon built a distillery, specializing in the production and distribution of distilled spirits, liqueurs and non alcoholic concentrates.

Rives Group has been a 100% Spanish owned family business for more than 130 years.

DISTILLATION PROCESS

We use the most traditional and artisanal process in our production in order to achieve the best quality.

A unique 30 m high column stills to rectify the alcohol and reduce any further impurities; one of the highest distilleries in Europe.

A

Two large hundred years old copper pot stills are used for the distillation of the botanicals together with the purest rectified alcohol and the water. The resulting distillation after boiling the alcohol together with the botanicals and water is called the alcoholato, obtained drop by drop.

The Master Distiller throw away both the 'heads' and 'tails' of the distillate, selecting only the 'heart' (middle body), right at the point when the taste and the botanical concentrates are optimum. The resulting distillate is left to settle for 24 hours, thus allowing the botanicals' essential oils to blend perfectly with the product.

B

A reverse osmosis water process is made to obtain a 100% pure water.

C

The bottles are rinsed with the same gin not to change the flavour before bottling.

D

The resulting product is a precious gin thanks to the balance of the purest alcohol, together with 100% neutral demineralised water and only natural botanicals

RIVES MEDITERRANEAN GIN

Rives Mediterranean Gin is the first gin produced by Rives, respecting the original recipe which distinguishes its clean dry taste. Classic gin, ideal for cocktails.

LONDON DRY METHOD

Rives Mediterranean Gin is made to the exacting quality standards of the London Dry Gin method. No artificial flavours or colourings are used in its production.

THE SPANISH GIN TONIC

- 1,69 fl of Rives Mediterranean Gin

- 6,76 fl of Tonic Water

- Lemon Twist or Orange Twist

Fill the glass with large ice cubes and stir. Add Rives Mediterranean Gin and aromatize with lemon or orange twist. Pour premium tonic water.

Enjoy the Perfect Gin Tonic with Rives Mediterranean Gin.

TASTING NOTES

- The nose is smooth, clean, subtle and elegant.
 - On the palate the gin reveals a multitude of nuance.
- Aromatic and with a fresh finish thanks to the touches of bitter citrus from Spain.
